Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner initiated this interview to discuss 112 1st support for the "old deductibles". Mr. Largent explained that the old deductibles are supported in paragraph 21 of the specification and figure 4. Mr. Largent went on to explain that "old deductibles" are merely "available deductibles" from the drawing element 402; however to avoid confusion with the available deductible retrieved from the third table in the claims, the phrase "old deductible" (as used interchangeably with "available deductible" in the Specification paragraph 21) is used instead of "available deductible from the fourth table" or the like..
